

Effective October, 2006, individuals in the SSI eligible group who are enrolled in RItE Care managed care may continue enrollment in a RItE Care health plan when they turn twenty-one (21) years of age until such time as SSI eligibility is discontinued.

Eligible members of this coverage group, who are covered by employer-sponsored or other third party health insurance, may receive Medical Assistance on a fee-for-service basis, rather than through enrollment in a RItE Care Health Plan.
